HOW TO DELIVER FASTER VALUE IN TECHNOLOGY TRANSFORMATIONAL PROJECTS

May 05, 2022

3:00 PM-4:15 PM

Central Time

Many organizations today are challenged with time-intensive and expensive workflows across their operations. These are often caused by manual processes, a lack of automation, and disparate systems. To increase efficiency and eradicate process siloes, organizations are turning to low-code automation, improving time-to-value and reducing the cost of development.

Key Takeaways:

- Gain insight into some of the core operational challenges organizations have solved for
- Discover the key benefits of a low-code automation platform
- Realize your organization's digital potential to deliver improved outcomes
