GENERATIVE AI: THE OPPORTUNITIES, CHALLENGES AND REALITY FOR CXO'S

October 09, 2024
5:30 PM-9:00 PM

Central Time

Generative AI has captured the world's attention as one of the most significant technology developments in decades. Boards and

CEOs are asking company leaders to share more about their specific plans to leverage this technology, including potential business impact, costs, and risks in their day-to-day operations. Senior leaders in Retail, Consumer Goods & Manufacturing organizations are trying to answer a number of questions. Join us for an invitation only conversation about Generative AI for senior leadership. Learn and share with your peers about real-world perspectives and experiences with this technology.
