**GENERATIVE AI: THE CATALYST FOR
BUSINESS TRANSFORMATION**

August 22, 2024

5:30 PM-9:00 PM

Pacific Time

In today's rapidly evolving business landscape, generative AI and machine learning technologies are revolutionizing the way companies operate and innovate. This exclusive executive dinner event offers a unique opportunity to explore the transformative potential of embracing generative AI. Join us to learn more about the exciting opportunities and thorny challenges of using generative AI in an enterprise environment, including potential benefits in healthcare, financial services, retail, and energy.
