AI & ML Partnerships
Amazon

Data as your Differentiator

9:55 AM-10:15 AM

Generative AI is generic and commodity *unless* you can integrate data about your business and customers, and that requires a modern data strategy. While technology is a critical component, learn what else comprises a modern data strategy and hear best practices for getting started on your journey today.

Networking Break

10:15 AM-10:30 AM

Innovation Showcase

10:30 AM-11:00 AM

In this live demo session, you will experience how generative AI streamlines the processing of large-volume insurance risk assessment reports, accelerating time to insights essential for underwriter decision-making. We will learn how this technology transforms traditional manual methods, significantly reducing the time and effort required in insurance risk management.

Navigating the Generative AI Landscape

11:00 AM-11:30 AM

Let's explore the transformative potential of Generative AI, guided by insights from cloud experts and industry leaders. We'll delve into real-world examples of AI innovations, strategies for C-level executives to integrate AI successfully, and best practices for enhancing customer experiences and driving business growth. Our discussion will also cover the most anticipated advancements in Generative AI over the next 12-24 months and their potential impact on businesses. Additionally, we'll address the ethical and regulatory considerations surrounding AI use, and examine the build vs. buy decisions executives face when choosing AI solutions.
