

Application Security in a DevOps, Cloud and API World

# CISO Dinner

## SPEAKERS

**Bradley Schaufenbuel**  
CISO  
Paychex

**Karl Mattson**  
CISO  
Noname Security

**Lamont Robertson**  
VP  
Bank of America

**Jince Lukose**  
CTO  
Applegate & Thorne-Thomsen

**Bradley Schaufenbuel**  
CISO  
Paychex

**Ray Trygstad**  
Director of Information  
Technology Enterprise  
Infrastructure  
Illinois Institute of  
Technology

**Cole Sinkford**  
CISO  
GE Energy

**Meet Mehta**  
Global Director IT  
Motorola Solutions

**Chris Carter**  
Global Head of Cyber  
Analytics

**Cole Sinkford**  
CISO  
Globalfoundries

**Karl Mattson**  
CISO  
Endor Labs

Application Security in a DevOps, Cloud and API  
World

[www.cvvisionintl.com](http://www.cvvisionintl.com)

Security teams are challenged to modernize application security practices in light of accelerating shifts to DevOps delivery models and rapid adoption of cloud-native application designs. Applications built on microservices (e.g. serverless, containers, APIs) and delivered continuously are outpacing application security teams ability to secure them. CISOs need to consider new skills, new touch points and new platforms to maintain a strong security posture in light of these trends and the speed at which they are re-shaping IT.

PANELISTS

Speaker

**Karl Mattson**  
**CISO**

Noname Security

Speaker

**Jince Lukose**  
**CTO**

Applegate & Thorne-  
Thomsen

Speaker

**Bradley Schaufenbuel**  
**CISO**

Paychex

Speaker

**Ray Trygstad**  
**Director of Information  
Technology Enterprise  
Infrastructure**

Illinois Institute of  
Technology

Speaker

**Cole Sinkford**  
**CISO**

GE Energy

Speaker

**Meet Mehta**
