**February 10, 2026**

6:00 PM-9:30 PM

Central European Time

### **AWS European Sovereign Cloud Roundtable**

This closed-door executive roundtable will convene senior leaders to explore the upcoming AWS European Sovereign Cloud and its implications for public sector and regulated industries. The discussion will focus on key architectural principles, governance considerations, and the role of sovereign cloud models in meeting Europe's evolving data sovereignty and compliance requirements.

Participants will engage with subject matter experts and peers to gain clarity on opportunities, challenges, and practical impacts for their organizations. Designed for a small group of decision makers, the session prioritizes open dialogue and actionable insight.
