5:30 PM-9:00 PM  
Eastern Time

## Improve Efficiency, Profitability, and Security by Migrating to the Cloud

Most businesses have siloed operations with data in many different places, limiting their ability to create meaningful business insights. By bringing data and key applications to the cloud, companies can reduce silos and get end to end visibility on their operations. With this powerful insight, they can improve cost and operational efficiency. Companies can also leverage AI, ML and Gen AI on this consolidated data to get predictive and differentiated outcomes.
